STATION #4: URBAN DESIGN AND ARTS

1) An urban design theme can create uniformity in:

- architectural style;
- landscape;
- pavement and sidewalk materials/patterns;
- street furniture;
- public signage;
- and other design elements.

Do you see the need to create a uniform design theme along the Broadway Corridor? If so, what design elements do you want to see addressed?

2) What are existing design elements in Lemon Grove that you like and want to see more of?

3) What types of public art would you like to see, and where should it be located?

Ideas might include: gateway monuments, signage, sculptures, murals, fountains, street furniture, etc.
